Care PROVIDERS

<http://hemophiliafed.org/resources/consumer-choice-directory/>

“GIVE A MAN A FISH AND YOU FEED HIM FOR A DAY.
TEACH A MAN TO FISH AND YOU FEED HIM FOR A LIFETIME.”

Chinese Proverb

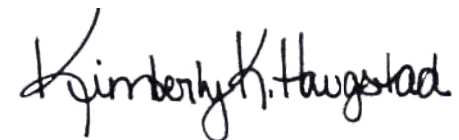

Dear Community Member,

HFA's mission to assist and advocate for the bleeding disorders community is strongly supported by providing education and information to our community membership. We strive to model the “teach to fish” method of encouraging well informed and well educated consumers to be strong self advocates who make wise choices that best serve their own individual needs.

Individuals with bleeding disorders are critically dependent on expert medical staff to assist in navigating through the difficulties of having a bleeding disorder and the associated issues that come along with this chronic condition. We strongly support access to comprehensive care for individuals with bleeding disorders. We also believe that it is important that patients and their physicians work together in the disease management process. A patient-centered experience with mutual respect between medical support and the family unit allow for both a positive experience and one that results in the best health outcomes.

This directory is intended to be utilized as a resource for people with bleeding disorders and their families. We hope it can be a useful as an information and education tool that supports efforts to continually improve the quality of life for this community.

Regards,

Kimberly Haugstad

**People with hemophilia do not bleed faster,
but for longer periods of time.**
