

## **Koate®-DVI Summer Supply Statement**

Kedrion Biopharma has placed a voluntary, temporary hold on further shipments of Koate-DVI until approximately the September timeframe.

The company is working to restore supplies of Koate-DVI as soon as possible so that it can be made available to patients who require it. This is being addressed as a top priority throughout the organization.

Kedrion Biopharma has conveyed this delivery delay information to healthcare professionals and others who order Koate-DVI, and will keep these groups updated as more information becomes available.
