

### **Example Statement One: Requesting Course**

My name is John and I have mild Hemophilia B. I have struggled to find a job that doesn't cause continued joint pain and I have worked in retail or warehouse jobs. Although I currently have a job, it is not a job I can do long term because it is causing damage to my joints. I would like to obtain a certification in Medical Coding and billing. This course would allow me to change jobs to something I can do long term that will not continue to cause me joint issues. Having stable employment would allow me to have a consistent income and potentially health insurance.
